

What's New in 2021.1

The following new features and enhancements are introduced in VERA DevOps 2021.1 release:

- [Approval Queue filters](#)
- [New User Profile page](#)
- [New Add User profile page](#)
- [Edit user improvements](#)
- [Improved Role Management page](#)
- [Improved Domain Management page](#)
- [Jira Data Center Support](#)
- [Defect fixes](#)

Approval Queue filters

- Approval Queue improvements to display Domain Name, Location ID and Project
- Added ability to Filter approval tasks by VERA Domain, Project Name, Location Name, Approval Task and Assigned Date

The screenshot shows the 'Approval Queue' page in the VERA DevOps interface. At the top left is the Tx vera logo, and at the top right is the user name 'Ada Lovelace'. Below the header is a table with columns: Domain, Project, Location, Record Type, Record Name, Approval Task, Assigned Date, and Actions. There are filter icons above each column. The table contains three rows of data:

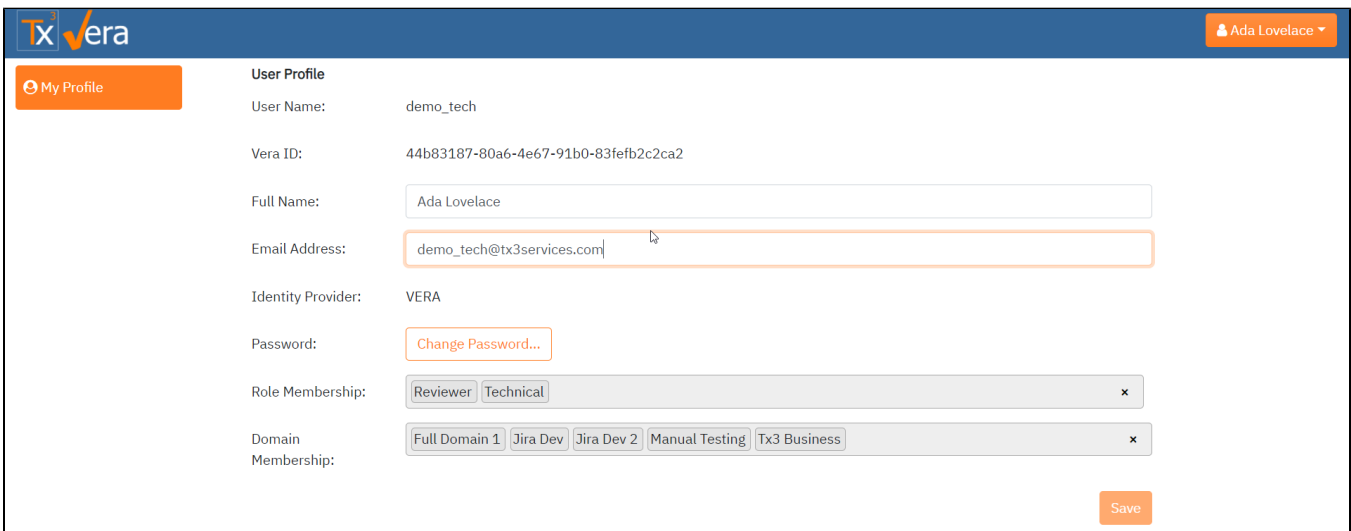

Domain	Project	Location	Record Type	Record Name	Approval Task	Assigned Date	Actions
Manual Testing	VERA-Dev-2b	Tx3 qTest Server	qTest Test Case	TC-2 - An Example Test Case in Domain 2	Technical Approval	2020-04-01 15:15:24 +00:00	
Jira Dev	VERA-Dev-2a	Tx3 qTest Server	qTest Test Case	TC-314 - User can view the list of qTest fields defined in the RMP on the approval task details page in VERA web portal 2020-04-08T17:28:28.491	Technical Approval	2020-04-08 21:28:59 +00:00	
Jira Dev	VERA-Dev-2a	Tx3 qTest Server	qTest Run	TR-144 - User clicks on the approval task link 2020-04-08T20:50:37.651	Technical Approval	2020-04-09 00:52:20 +00:00

New User Profile page

The User Profile page replaced the My Profile page and the Edit User dialog.

- Added ability to view your domain membership from the user profile
- Added ability for users to update email address from user profile page. See [Viewing and Editing Your Profile](#)

The screenshot shows the 'User Profile' page in the VERA DevOps interface. At the top left is the Tx vera logo, and at the top right is the user name 'Ada Lovelace'. Below the header is a 'My Profile' button. The main content area shows the following fields:

- User Name: demo_tech
- Vera ID: 44b83187-80a6-4e67-91b0-83fefb2c2ca2
- Full Name: Ada Lovelace
- Email Address: demo_tech@tx3services.com
- Identity Provider: VERA
- Password: Change Password...
- Role Membership: Reviewer, Technical
- Domain Membership: Full Domain 1, Jira Dev, Jira Dev 2, Manual Testing, Tx3 Business

A 'Save' button is located at the bottom right of the form.

Figure: new User Profile page

New Add User profile page

- Administrators can add a new user from the VERA Administrator User Management Portal. See [Adding a New User](#)

Edit user improvements

The User Profile page replaced the Edit User dialog.

- Administrators can configure user's authentication profile from user profile page
- Administrators can add/remove role assignments and domain assignments from the user profile page. See [Updating User Details](#)

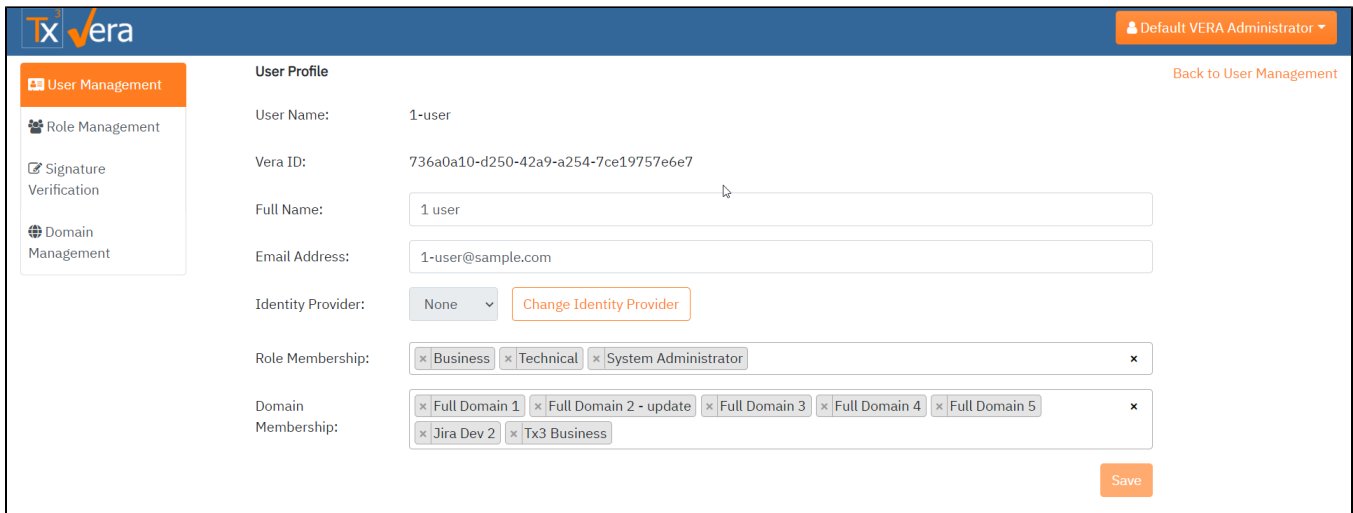

Figure: new User Profile page with expanded edit capabilities

Improved Role Management page

Added ability to filter users in roles and find available users. These filter and search capabilities simplify adding and removing Users from VERA Roles. See [Adding/Removing Users from VERA Roles](#)

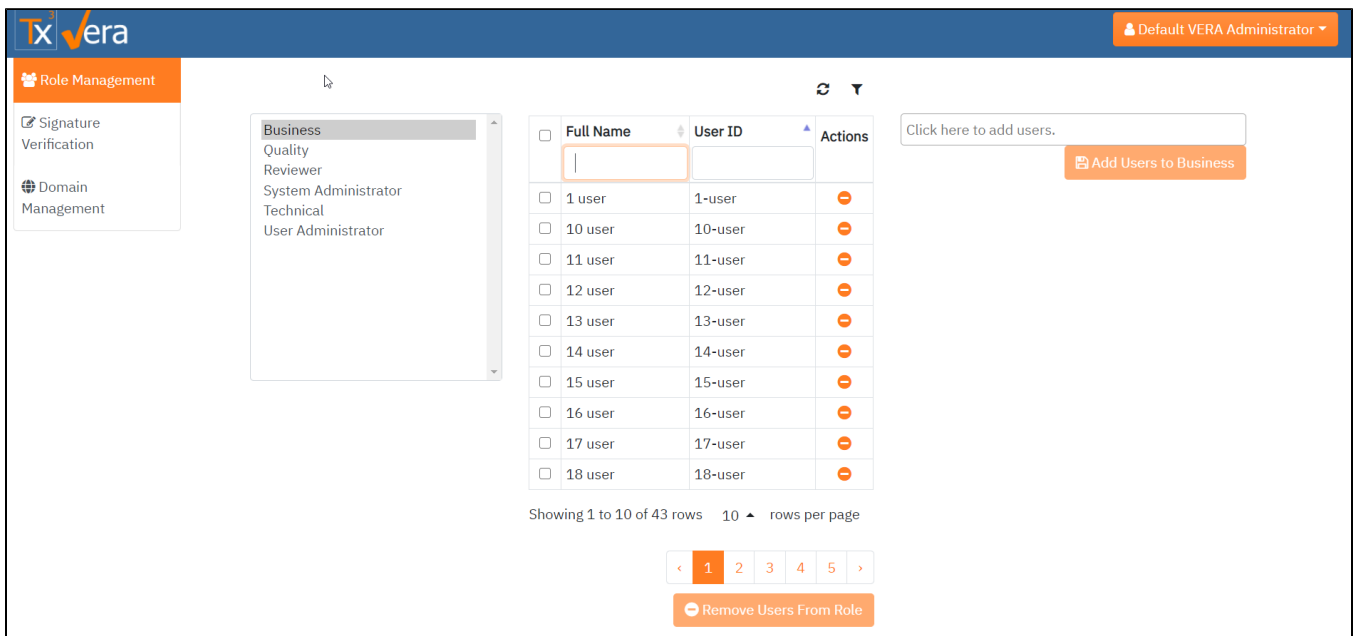

Figure: Role Membership Page with new filterable role member table and new user search features.

Improved Domain Management page

- Improved process for administrators to edit domain name and descriptions from domain's details page. See [Editing a Domain's Details](#)

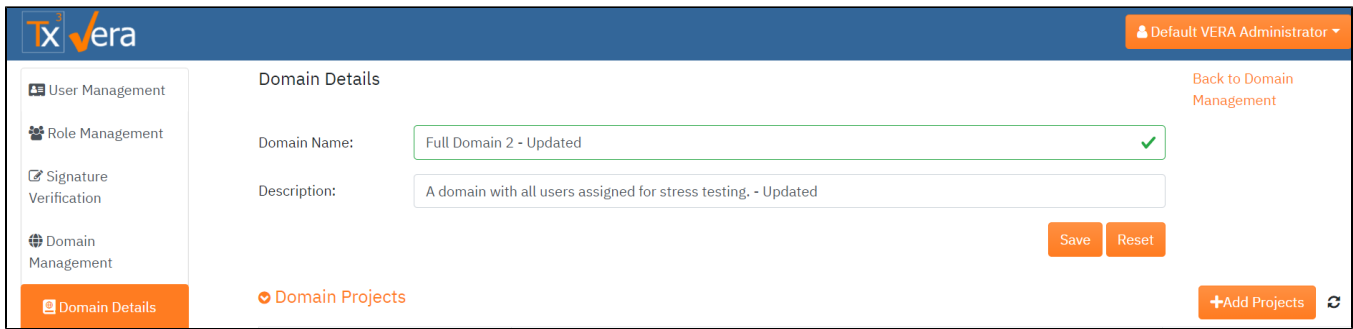

Figure: Domain Details page now supports editing Domain Name and Description

Jira Data Center Support

- VERA electronic signatures for JIRA App supported Jira Data Center, To get the app now go to, [VERA Electronic Signatures for Jira | Atlassian Marketplace](#)

Defect fixes

Various defect fixes to the Web Portal and API Server.
